

WELCOME TO THE
DEGEN APE LIFE

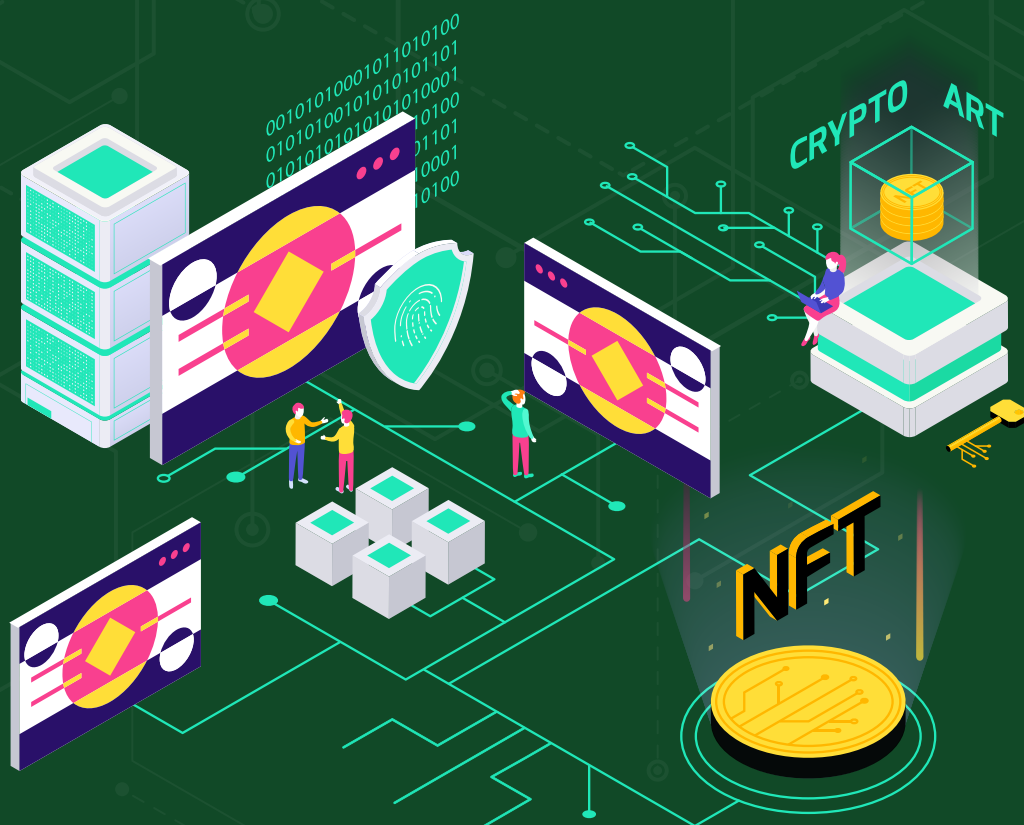

WHITEPAPER

INTRODUCTION

In recent years, there has been an increase in the interest in non-fungible tokens (NFT) to purchase digital art which has shaped a new form of art collecting. The NFT boom has been described by some as a bubble ready to pop, but we have a different perspective.

Degen Ape Life is aV2 Token (ERC-20) which came with a limitless benefits. We aim to create an irreplaceable position in the market as a ERC-20 token with limitless financial rewards and benefits, all the while doing our part for the community. DALV2 is recognized as a token with unbelievable potential and benefits for investors. We strive to serve our community through innovative ways, compelling rewards, and most importantly, amazing donations. We will be making donations to the African Wildlife Foundation as we grow also we are going to have a small NFT collection too.

TOKENOMICS

The total supply of DALV2 is 1 Trillion (1,000,000,000,000). Degen Ape Life V2 will be fair, and stealth launched, ensuring that everyone had an equal opportunity to become an early trader.
